"Cookies" are technological features which can be used to provide you with tailored information from a Web Site.

A cookie is a data element a Web Site can send to your browser, which may then store it on your system. Passwords you request to be "remembered" are examples.

We use cookies to help enhance and ease your use of the site. You can often set your browser to stop cookies but this will affect your enjoyment of this and other sites. We specifically use cookies for use on the forum, where they allow us to show you the posts you have read, the PMs you have opened and settings you have applied. This is a complex area— you can find out more about your rights and how to stop cookies at [www.allaboutcookies.org](http://www.allaboutcookies.org)
